

# Picture yourself in the warmth that is Provence.

Ah, Provence. The name says it all. From that 'special' light that attracted the great impressionists, to the market-fresh produce that attracts the chefs and those that enjoy great food. The world-renowned wines of Chateauneuf, the small AOC of Cornas, the village that makes your favourite Cotes du Rhone Villages. All this and more is on your doorstep when you rent the Villa le Debut. We have combined a charming, modern French house with European quality furnishings and North American sensibilities to make a perfect get-away place for the traveller who is looking for something more than a hotel vacation.

Find out why there are so many books written about this most picturesque part of the French countryside. Experience first hand the open air markets where everything from just-picked fruit and vegetables to masterfully-prepared charcuterie, cheese and other food products are ready for your selection.

Each town has one or more market days per week, when anything from a single square near the town hall to several blocks of squares and streets are given over to vendors who travel the market loop. You must get there before noon as everything is dismantled by 12:30 and the vendors are enjoying that other tradition - the midday meal. An event to be lingered over for a couple of hours.
